## Here are 7 Life-Changing Money Moves Every Woman Needs to Know

**1. Keep saving.** If you've got this far, what's your next money move? Regardless of where you stand financially you want to make sure you are always positioning yourself to save.

**2. Pay off debt.** The Debt Snowball Method by Dave Ramsey, is an easy and manageable way to begin understanding how to tackle your debt.

**3. Make a list of your debts** and begin to pay off the smallest one, regardless of interest rate.

**4. Get the best of your current rates.** Check your car insurance, renters insurance, health, dental, cell phone, etc. and any other monthly recurring bills to make sure you are getting the best rate possible.

**5. Invest.** Assuming you've decided to keep the \$1,000 for your emergency fund, and you have zero debt plus your three months expenses are saved, begin to search where you want to invest your money so that it will grow and make money for you. Options to include but not limited to: real estate, stocks, bonds, commodities, cryptocurrencies and the like.

## Have \$1,000 in the Bank? *from Cassie Rajewich*

**6. Build your passive income.** Buying an investment that makes you money month after month and year after year, over and over again, is the goal here. Passive income ideas include but are not limited to: real estate properties, dividends from stocks, laundromats, peer to peer lending, create an app, e-courses, e-books, and more.

**7. Start a side hustle.** Are you currently doing what you love? Whether it be in your career or a passionate hobby, I encourage you to dig in and find a way to create revenue. If you aren't doing what you love, what do you enjoy doing that others would pay you for? Not there yet? How can you improve on what you love doing with a little research, certificate or hired coaching that could land you with a business that adds extra money to your bank?

### **Love the ideas but not sure which move to make first?**

Here's a little tip. Before you're ready to invest or start that side hustle, ideally, you want these three things in place:

**DEBT FREE**

**\$1,000 EMERGENCY FUND SAVED**

**3-6 MONTHS SAVINGS IN AN ACCESSIBLE ACCOUNT**
